MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,
City Clerk.

INAUGURAL ADDRESS OF ROBERT W. BROWN

MAYOR OF CONCORD, N. H., JANUARY 28, 1930

To the Board of Aldermen:

At the outset I feel called upon to say that my election as Mayor of my native City by the Board of Aldermen, and subsequent re-election by the people, is to me a source of mingled pride and satisfaction, and because I was originally selected to fill a vacancy caused by death it has been my constant endeavor to carry out, in a general way, the policy of my immediate predecessor, the late Olin H. Chase.

During the past two years the business of the City has been handled with a minimum of friction and the following outstanding results have been accomplished:

An appropriate celebration of Armistice Day was observed.

An extension of the sewer was made to serve residents of the extreme South End in the vicinity of Hall, Broadway, Rockingham, Wiggin, and South Main Streets.

The City Engineer reports that several new streets have been laid out and accepted.

An Engine Company, known as No. 5, has been organized in Ward 8 on the Plains.

In order to facilitate the transaction of city business, Miss M. A. Spencer has been appointed Deputy City Clerk.

A new piece of cement concrete road has been constructed from Fruit Street to St. Paul's School.

Town line signs have been placed on all roads leading out of Concord.

Repairs on City Hall and Auditorium have been authorized and the work is well under way.

Three pumping engines have been added to the equipment of the Fire Department.

The water system has been extended to East Concord village.

An entirely new system for the control of the Police and Fire Departments has been put in force. This system consists of Police and Fire Committees in the Board of Aldermen, both of which have enlarged powers of control.

The first steps have been taken looking to the possible re-location of both the Good-Will and Alert Fire Stations by acquiring the Franklin Street School property and land bordered by South, Broadway and West Streets.

The Penacook School, located at the corner of South State and West Streets, has been purchased for playground purposes.

Several points of extreme hazard on the trunk lines have been completely removed, or the dangers greatly reduced. In the latter class I point with much satisfaction to the increase in width of roadway on the curve at the Golf Station West Concord.

Discount on taxes, based on approximately the same rate at which money has been borrowed from Banking Institutions, was allowed to our citizens.

All roads, which have become dangerous through lack of use, have been posted, thereby relieving the City of liability in case of accidents.

It should be kept in mind that the Mayor takes no credit for these accomplishments beyond the fact that they had his full sanction and hearty approval.

During the coming two years I shall continue the policy of keeping the Board of Aldermen and general public informed of all important phases of city business.

Citizens individually or in organized groups who desire to make suggestions in the line of civic betterment and progress will receive respectful hearings in my office and all such matters when transmitted to the Board of Aldermen will be given careful consideration.

With the many demands for new projects that will add to the comfort, pleasure and safety of our people combined

with those now under consideration; such as the swimming pool, completion of Athletic Field buildings, the Pembroke Bridge and other undertakings of less importance, I can see little or no hope of reduced taxation. In this connection the most that I can honestly promise is that I, with the support of the Board of Aldermen, will do all in my power to eliminate waste and extravagance.

I am opposed to any change in the method of garbage disposal at this time except in the matter of the City Dump. With the segregated collection that is now demanded there are many places where otherwise useless material can be used for filling purposes, thereby creating taxable property out of waste-land. Filling such as has been done along the Bog Road is a fair demonstration of the value of such material.

During my service as Mayor it has been my aim to thoroughly acquaint myself with the workings of all the City departments, with no thought of dominating the management of any, but rather to suggest change of methods that will be of benefit to the City. Several changes have already been made and others will become effective in 1930. The resulting improvements in methods could not have been accomplished without the co-operation of department heads and the sympathetic support of the Board of Aldermen.

The Police and Fire Departments are now under the supervision of aldermanic committees or boards. These boards are continually working for the betterment of their departments, and since I am a member of each I am able to testify of my own knowledge that they are making excellent progress. Much has been done so far and much more remains to be done.

I recommend that certain changes be made in the Building Code that will give the Building Inspector a broader use of his discretion in safeguarding life and property.

I recommend that the Board give serious consideration to the important matter of zoning.

I recommend that the matter of a year-round Playground Director to work with the Recreation Commission and Playground Committee be given careful consideration by the Board.

I recommend necessary changes in the accounting system looking toward a more rigid central purchasing set-up.

I recommend that all city employees handling public funds be bonded to the full extent of the hazard involved.

With reference to the financial standing of the City a statement of the bonded indebtedness follows: The borrowing power of the Union School District is \$904,700, and its present bonded indebtedness is \$710,000. The borrowing power for regular city purposes, excluding the Water Works, is \$980,512. Our bonded indebtedness at the present time is \$467,680. Our tax rate in 1929 was \$29.60, made up as follows: \$5.04 County and State, \$13.98 Schools, \$10.54 general City budget, \$.04 special sewer tax. In other words more than one-half of the tax assessed is used for State, County and school purposes, and in this matter your Board, as a body, has no voice.

As an indication of the sound financial condition of the City I call attention to the latest sale of municipal bonds at \$1,006.59.

Although I am pleased with the general situation much remains to be done. It should be borne in mind that the Mayor, even with the full support of the Board, is unable to do everything that he would like to do. If it were as easy to do well as it is to wish to do well, my task would be an easy one. Our City Government system is an old one and it usually takes time to successfully combat the fallacy that a thing is right simply because it has always been so. With these things in view it will be seen that this is neither the time nor the place for ill-considered promises and none will be made, except that I will, with your assistance, strive incessantly to give the City an administration that will be a source of pride and satisfaction to all our people.

In addition to that pledge I also promise that inside of forty-eight hours from noon today the present City Dump on Bridge Street will be moved to a location that was prepared for that purpose many months ago.

It would be quite impossible for me to close this address without expressing grief over the untimely passing of our beloved colleague Charles H. Rowe. In his death Concord lost a citizen of sterling worth and it is my belief that every member of the City Government is conscious of a deep personal loss.

And now in conclusion I wish to express, in a very hearty and friendly way, my gratitude to the Board for its unflinching courtesy to me and I can honestly enlarge that expression so that it will include all heads of departments and every employee of the City with whom I have come in contact.

ORDINANCES AND RESOLUTIONS

PASSED DURING THE YEAR ENDING JANUARY 12, 1931.

AN ORDINANCE IN AMENDMENT OF CHAPTER 42 OF THE REVISED ORDINANCES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Section 1 of Chapter 42 of the Revised Ordinances is hereby amended by striking out all of the words commencing with the word "Mayor" in the next to the last line thereof to the end of the Section, and substituting therefor the following: "police board and city clerk who are hereby constituted a licensing board", so that said Section as amended shall read as follows: Sec. 1. Where a portion of a lot is within the above limits a length of frontage equal to the width of such portion only shall be included. On a corner lot with both sides within the above limits the longer side only shall be included.

SECTION 3.

General Residence District Uses

In a general residence district no building or premises shall be erected, altered or used for any purpose except

- 1. Any use permitted in a single residence district;
- 2. Detached two-family dwelling or pair of semi-detached one-family dwellings;
- 3. Telephone exchange, not including a service station or outside storage of supplies;
- 4. Accessory use customarily incident to any of the above uses.

SECTION 4.

Apartment House District Uses

In an apartment house district no building or premises shall be erected, altered or used for any purpose except

1. Any use permitted in a general residence district;
2. Dwelling;
3. Club, except clubs the chief activity of which is a service customarily carried on as a business.
4. Hotel, provided it conforms to all the requirements of this ordinance for a dwelling;
5. Accessory use customarily incident to any of the above uses.

SECTION 5.

Local Business District Uses

In a local business district no building or premises shall be erected, altered, or used for any purpose prohibited in a commercial district, nor, except under like restrictions, for any purpose restricted in a commercial district; for any purpose injurious, noxious or offensive to a neighborhood by reason of the emission of odor, fumes, dust, smoke, vibration or noise or any other cause; or from any purpose except.

1. Any use permitted in an apartment house district;
2. Hotel;
3. Fire Station;
4. Office or bank;
5. Place of amusement or assembly;
6. Any other retail business or service not involving manufacture on the premises except of products the major portion of which are to be sold at retail by the manufacturer to the consumer and provided further that not more than five operatives shall be employed in such manufacture.

SECTION 6.

Commercial District Uses

(a) In a commercial district no building or premises shall be erected, altered or used for any of the following specified trades or uses:

1. Ammonia, bleaching powder or chlorine manufacture or refining;
2. Asphalt manufacture or refining;
3. Blast furnace;

4. Cement, gypsum, lime or plaster of paris manufacture;
5. Coke manufacture;
6. Creosote manufacture;
7. Dextrin, glucose or starch manufacture;
8. Distillation of bones, coal or wood or manufacture of any of their by-products;
9. Dye manufacture;
10. Explosives or fireworks manufacture or storage in excess of five hundred pounds;
11. Fat, grease, lard or tallow manufacture, refining or rendering;
12. Fertilizer manufacture;
13. Gas (fuel or illuminating) manufacture in excess of one thousand cubic feet per day or storage in excess of ten thousand cubic feet except in a municipal or public service plant;
14. Gelatin, glue or size manufacture from fish, animal refuse or offal;
15. Hair manufacture;
16. Hot rolling mill;
17. Hydrochloric, nitric, picric, sulphuric or sulphurous acid manufacture;
18. Incineration, reduction or dumping of dead animals, garbage, offal or refuse except by the city or its agents or when accumulated and consumed on the same premises without the emission of odor;
19. Lamp black manufacture;
20. Linoleum or oilcloth manufacture;
21. Match manufacture;
22. Petroleum or other inflammable liquids: production or refining;
23. Pyroxylin manufacture, manufacture of articles thereof, or storage in excess of five hundred pounds;

26. Tanning, curing or storage of raw hides or skins;
27. Tar distillation or manufacture;
28. Turpentine or varnish manufacture;
29. Any other trade, industry or use that is injurious, noxious or offensive to a neighborhood by reason of the emission of odor fumes, dust, smoke, vibration or noise or other cause, but not including places of amusement; provided however, that a building or use otherwise excluded but distinctly incidental and es-

sential to a use of a building or plant with a series of buildings permitted in a commercial district may be erected, altered and used if not more than ten per cent of the total floor area of the building or plant is to be so occupied, if not more than ten per cent of all the employees are to be engaged therein, if it is not located within fifty feet of any street line or lot line, and if it is not detrimental or injurious to the neighborhood.

Restricted Uses

(b) No building or premises shall be erected, altered or used for any of the following specific uses unless the Board of Adjustment shall rule that such use under such conditions and in such a building as it may prescribe will not be detrimental or injurious to the neighborhood:

1. Blacksmith Shop;
2. Coal yard;
3. Filling station;
4. Junk yard;
5. Lumber yard; or
6. Public Garage or stable;
7. Commercialized Amusements.

SECTION 7.

Industrial District Uses

In an industrial district no building or premises shall be erected, altered or used for any use prohibited in a commercial district unless the Board of Adjustment shall rule that use under such conditions and in such a building as it may prescribe will not be detrimental or injurious to the neighborhood.

NON-CONFORMING USES

SECTION 8.

Continuation of Non-Conforming Uses

(a) Any lawful building or use of a building or premises or part thereof at the time of the adoption of this ordinance or any amendment thereto may be continued although such building or use does not conform to the above provisions hereof, or of such amendment.

Conversion of Existing Single Dwellings

(b) In a single residence district nothing herein shall prevent any dwelling, existing at the time this ordinance is adopted

and having a volume above the first story floor, exclusive of porches, exceeding twenty-five thousand cubic feet, being altered to provide for and being used for two families, provided it is not enlarged in volume.

Change or Extension of Non-Conforming Uses

(c) The Board of Adjustment may order the issuance of a permit for any non-conforming use to be changed to any specified use not substantially different in character or more detrimental or objectionable to a neighborhood, or if in a part of a building or premises designed or intended for such use to be extended throughout such building or premises. The Board of Adjustment may order the issuance of a permit for any building of non-conforming use to be enlarged during its life not more than twenty per cent in volume and to be altered during its life to an extent not exceeding fifty per cent of its assessed value.

Temporary Uses

(d) The Board of Adjustment may order the issuance of a permit for a quarry or gravel or sand pit or for a non-conforming temporary building or use incidental to the development of a neighborhood, such permit to be issued for an initial period of not more than two years, and only upon application accompanied by a bond effective in case the building is not removed prior to the expiration of the permit. Such permits may be ordered renewed by the Board for successive periods of not more than one year each.

Restoration After Fire

(e) Nothing herein shall prevent the substantial restoration within one year and continued use of a building damaged by fire or other casualty, provided that in case of damage to a building non-conforming in use, location or structure to an extent that the estimated cost of such restoration exceeds three quarters of its fair valuation immediately prior to such damage the Board of Adjustment so authorizes.

HEIGHT REGULATIONS

SECTION 9.

Single Residence District Height

(a) In a single residence district no building shall exceed two stories or thirty feet in height unless it sets back from each

street and lot line five feet in addition to the requirements of Section 10 plus one foot for each foot of excess height. No building shall exceed four stories or fifty-five feet in height.

General Residence District Height

(b) In a general residence district no building shall exceed two stories or thirty feet in height unless it sets back from each street and lot line five feet in addition to the requirements of Section 10 plus one foot for each foot of excess height. No building shall exceed four stories or fifty-five feet in height. No dwelling for more than one family shall exceed two stories or thirty feet in height, provided that this shall not prevent any dwelling existing at the time this ordinance is adopted being altered to accomodate not more than two families.

Apartment District Height

(c) In an apartment house district no building shall exceed four stories or fifty-five feet in height unless it sets back from each street and lot line ten feet in addition to the requirements of Section 10 plus one foot for each foot of excess height. No building shall exceed six stories or seventy-five feet in height.

Local Business District Height

(d) In a local business district no building shall exceed thirty feet in height unless every part exceeding such height sets back from each street and lot line one foot for each foot of excess height. No building shall exceed fifty-five feet in height. In a local business district contiguous to an apartment house or commercial district these heights may be exceeded by twenty-five feet. In a local business district not contiguous to an apartment house or commercial district no dwelling shall exceed two stories or thirty feet in height.

Commercial District Height

(e) In a commercial district no part of a building shall exceed seventy-five feet in height unless such part is set back from each street and lot line one foot for each one and one-half feet of excess height. No building shall exceed in volume its lot area multiplied by seventy-five feet.

Industrial District Height

(f) In an industrial district no building shall exceed the height prescribed in commercial districts. No dwelling shall exceed three stories or forty feet in height.

Measurement of Height

(g) The height of a building abutting on a street shall be measured from the mean curb grade, and if not on a street from the mean ground level along its front, to the mean height of that portion of the roof above the highest floor.

Height Exceptions

(h) Chimneys, elevators, tanks, poles, spires and towers not used for human occupancy may extend above the height limits herein fixed, and parapet walls and other unused projections and bulkheads may so extend not more than five feet.

AREA REGULATIONS

SECTION 10.

Rear Yards.

(a) In a single residence district no building shall be built within a distance from the rear lot line equal to one-quarter of the depth of the lot or thirty feet, whichever is the less. In a general residence district no building shall be built within a distance from the rear lot line equal to one-fifth of the depth of the lot or twenty-four feet, whichever is the less. In an apartment house district no building, and in a local business, commercial or industrial district no dwelling shall be built within a distance from the rear lot line equal to one-fifth of the depth of the lot or fifteen feet, whichever is the less, and such distance shall be increased five feet for each additional story of the building above three stories.

Side Yards

(b) In a single or general residence district no building shall be built within five feet of a side lot line, nor within sixteen feet of any other building on the same lot, provided that on no lot existing at the time this ordinance is adopted shall the aggregate width of side yards required be such that less than twenty-four feet of the width of the lot may be built upon, and provided further that in a general residence district nothing herein shall prevent the building together of two one-family dwellings separated by a fireproof division with no openings. In an apartment house district no building shall be built with a side wall within five feet of a side lot line, except where there is a party wall, and such distance shall be increased one foot for each additional story of the building above three stories and also one foot for each twenty feet or fraction thereof that the

length of the side yard exceeds sixty feet. In a local business, commercial or industrial district no dwelling shall be built with a side wall within the distance required in an apartment house district from a side lot line unless contiguous thereto.

Outer Courts

(c) The term "outer court" shall mean an unoccupied space other than a yard and extending through its full required width to a street, yard, or another outer court. No outer court on a lot line shall be less than six feet wide. For each story over three stories in the height of any such court its width shall be increased one foot. No such court shall be less than one-seventh as wide as it is long. No outer court not on a lot line shall be less than twelve feet wide. For each story over three stories in the height of any such court its width shall be increased two feet. No such court shall be less than two-sevenths as wide as it is long. In a single or general residence district no window in a dwelling shall open upon an outer court with a horizontal depth exceeding its width.

Inner Courts

(d) The term "inner court" shall mean an unoccupied space other than a yard and not extending through its full required width to a street, yard or outer court. No inner court on a lot line shall be less than eight feet wide nor less than sixteen feet long. For each story over three stories in the height of any such court its width shall be increased one foot and its length shall be increased two feet. No inner court not on a lot line shall be less than sixteen feet wide or long. For each story over three stories in the height of any such court its width and length shall each be increased two feet. In a single or general residence district no window in a dwelling shall open upon an inner court with a vertical depth exceeding its width.

Front Yards

(e) In a single or general residence district no building shall be built and no roadside stand shall be placed within fifteen feet of the street line, provided that no building need be set back more than twenty per cent of the depth of the lot nor more than the average of the setbacks of the buildings on the lots next thereto on either side, a vacant lot or a lot occupied by a building set back more than fifteen feet being counted as though occupied by a building set back fifteen feet, and provided further that no uncovered porch need set back more than ten feet. In

an apartment house or local business district no building shall be built within five feet of the street line.

Rear Dwellings

(f) There shall be in front of every building not fronting on a street a yard not less than the depth required for the rear yard behind the same building.

Vegetation on Corners

(g) Within the area formed by the lines of intersecting streets and a line joining points on such lines fifteen feet distant from their point of intersection, or in the case of a rounded corner the point of intersection of their tangents, no structure other than a building and no foliage may be maintained between a height three and one-half feet and a height eight feet above the plane through their curb grades.

Accessory Buildings

(h) On a lot occupied by a dwelling other than an apartment or tenement house or hotel, a one-story building of accessory use thereto and not more than twelve feet high may be located in and occupy not more than thirty per cent of the rear yard of such dwelling. No yards are required for such building by this ordinance. The area occupied by a building of accessory use shall be included as occupied area in computing lot occupancy.

Projections

(i) Nothing herein shall prevent the projection of cornices, window sills, belt courses and other ornamental features not more than three inches into any required yard or court, nor the projection of cornices not more than fifteen inches into any required yard.

Lot Size

(j) In a single or general residence district no dwelling shall be erected on a lot containing less than five thousand square feet or less than fifty feet wide unless such lot is of record at the time this ordinance is adopted, and no dwelling for more than one family shall be erected on any lot containing less than six thousand square feet. In any district no dwelling shall occupy more than seventy per cent of its lot.

Required Windows

(k) Every room in which one or more persons live, sleep, work continuously or congregate, except storage rooms, bath-rooms, toilet compartments, hallways, stairways, rooms where the nature of the occupancy will not permit, and rooms mechanically ventilated so as to provide at least three positive air changes per hour, shall have windows or ventilating skylights, with an aggregate area not less than one-eighth of the floor area of the room, opening directly either upon a street, alley, public park, cemetery, or railroad right-of-way, or upon a yard or court located upon the same lot.

Appurtenant Open Space

(1) No lot shall be so reduced that the dimensions of any of the open spaces shall be smaller than herein prescribed. No yard or other open space required for a building by this ordinance shall during the life of such building be occupied by or counted as open space for another building.

Enforcement

SECTION 11

Enforcement by Inspector of Buildings

(a) This ordinance shall be enforced by the Inspector of Buildings in the same manner and with the same powers practiced or provided under the Building Code of the City of Concord. No building or structure or part thereof shall be erected, altered or moved without a permit from the Inspector of Buildings, issued upon application, stating that the plans and intended use indicate that the building is to conform in all respects to the provisions of this ordinance.

Certification of Occupancy Required

(b) No premises or structure or part thereof hereafter erected or altered wholly or partly in use or structure, or moved, or the open spaces of which are in any way reduced, shall be used until the Inspector of Buildings shall have certified on the building permit, or in case none is issued shall have issued a certificate of occupancy, specifying the use to which the premises, or building upon being sufficiently completed to comply with the provisions and regulations relating thereto, may be put.

Board of Adjustment

(c) Within thirty days after the adoption of this ordinance and thereafter as terms expire or vacancies occur, the Mayor, subject to confirmation by the Board of Mayor and Aldermen, shall make appointments to a Board of Adjustment conforming in membership and duties to the provisions of Section 7 of chapter 92 of the Laws of 1925. The Board shall act on all matters within its jurisdiction under this ordinance in the manner prescribed in said section of said chapter and subject always to the rule that due consideration shall be given to conserving the public health, safety, convenience, welfare and property values.

Penalty

(d) Whoever violates any of the provisions of this ordinance shall be punished by a fine not exceeding twenty dollars for each day of such violation.

SECTION 12.

Other Laws, Etc., Not Interfered With Unless Less Stringent

(a) This ordinance shall not interfere with or annul any ordinance, rule, regulation or permit, provided that unless specifically excepted, where this ordinance is more stringent it shall control.

Validity

(b) The invalidity of any section or provision of this ordinance shall not invalidate any other section or provision hereof.

When Effective

(c) This ordinance shall take effect upon its passage.

Board of Aldermen Dec. 13, 1930. Passed.

AN ORDINANCE AMENDING CHAPTER 42 OF THE REVISED ORDINANCES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Section 1 of Chapter 42 of the Revised Ordinances is hereby amended by striking out the whole thereof and substituting the following: Section 1. No showman, tumbler, rope dancer, ventriloquist or other person shall for pay exhibit any

feats of agility or horsemanship or sleight of hand, rope dancing, or feats of cards, or any animal, wax figures, puppets or other show, or shall perform or exhibit any theatrical representation in this city, nor give any musical performance or exhibition of singing or dancing or other exhibition or amusement of any kind with or without pay, nor hold or engage in any parade or procession upon any public street or way, nor hold or take part in any open-air public meeting upon any ground abutting thereon, unless a license or permit therefor in writing, specifying the time and object for which said license is granted, shall first be obtained from the mayor, city clerk, and chief of police, who are hereby constituted a licensing board.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed Dec. 29, 1930.

AN ORDINANCE RELATING TO THE SALARIES OF POLICE OFFICERS ON SPECIAL ASSIGNMENT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 2. There shall be raised, and there is hereby ordered to be raised, a tax of three and 50/100 dollars (\$3.50) on each thousand dollars of the value of the ratable estates taxable within said city for the support of the public schools, which, together with the income of the Abial Walker fund shall be appropriated and divided among the school districts according to the valuation thereof.

There shall also be raised a sum equal to two dollars (\$2) for each child residing in the city who was enrolled in the public schools in the last preceding school year.

SECTION 3. In addition to the foregoing there is appropriated for the cemeteries of the city one-third of the income from the sale of lots and the income derived for the care of lots and grading, which sum shall be deposited by the superintendent, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries, and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year, and the remainder in each instance credited to the individual fund.

SECTION 4. In addition to the foregoing there is appropriated for the use of the Public Library the income derived from the Public Library Trust Funds.

SECTION 5. This resolution shall take effect upon its passage.

Passed March 27, 1930.

RESOLUTION FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE
RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN
THE LIMITS OF THE SEWERAGE PRECINCT FOR THE ENSUING FINAN-
CIAL YEAR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised on the polls and ratable estates within the sewerage precinct of said city, the sum of six thousand dollars (\$6,000.), to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of bonds,	\$5,000.00
For the payment of interest that may become due on precinct bonds,	1,000.00

SECTION 2. This resolution shall take effect upon its passage.

Passed April 14, 1930.

RESOLUTION APPROPRIATING THE SUM OF THIRTY-SIX THOUSAND
DOLLARS (\$36,000.00) TOWARDS THE COMPLETION OF THE MEMORIAL
ATHLETIC FIELD.

Resolved by the Board of Aldermen of the City of Concord, as follows:

MAYORS OF CITY OF CONCORD.

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected, in December, 1910, for one year, and biennially thereafter in November beginning in the year 1911.

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Honorable Mayor and Board of Aldermen:

The Board of Water Commissioners, in submitting their annual report for the year 1930, feel that this is a rather eventful year in the history of the Concord Water Works, for the reason that the city was obliged to obtain an additional supply of water, supplementing the main source of supply at Penacook Lake. On account of the continued drought and low water in Penacook Lake, the Water Board, acting on the advice of its superintendent, Mr. Sanders, and the firm of Metcalf & Eddy, engineers of Boston, decided last summer to commence the work of driving test wells in the Soucook River Valley. The result of this work has been extremely gratifying and satisfactory up to the present time, as there is being pumped daily from these driven wells about eight hundred thousand gallons of water into the city's distributing water system. The pumping of this additional water supply from Soucook River Valley relieves the main water supply by that number of gallons.

We are also at the present time buying from the Boscawen Water Works about 150,000 gallons of water daily, in supplying the water takers in Penacook.

The coming year will show the completion of the new water supply from the driven wells in the Soucook River Valley which includes the driving of the wells, the erection of pump houses and the installation of two electric pumps and one gasoline pump capable of pumping 2,500,000 gallons of water daily. There are also to be erected in connection with the pumping plant, a work shop and garage and when

all of this work is completed, including cost of land, rights of way, piping, roadways, etc., it will amount to about \$125,000.

Respectfully submitted,

HARRY H. DUDLEY, *President*,

EXTENSIONS AND IMPROVEMENTS.

Distribution pipes laid in 1930:

12-inch:

North Pembroke Road, extended east to Well Field at Soucook River, 7,505 feet.

6-inch:

South Pembroke Road, extended to Airport, 4,269 feet.

Joffre Street, west from Donovan Street, 686 feet.

Donovan Street, from Wiggin to Joffre Street, 269 feet.

Kent Street, extended east, 127 feet.

2-inch:

North Fan Road, east from East Penacook Street, 697 feet.

Loudon Road, extended east, 286 feet.

Redwood Avenue, north from West Street, 249 feet.

Eastman Street, East Concord, extended west, 335 feet.

Wyman Street, extended west, 119 feet.

1½-inch, 82 feet; 1-inch, 232 feet; ¾-inch, 135 feet.

On hydrant branches: 337 feet of 6-inch.

Sixteen gates were set.

Ten new hydrants were set as follows:

South Pembroke Road, at Airport in grounds.

South Pembroke Road, west side, opposite Airport.

South Pembroke Road, west side, south of Airport.

South Pembroke Road, west side at Mahoney's.

South Pembroke Road, west side at Mrs. Grant's.

South Pembroke Road, west side at LaFleur's.

South Pembroke Road, west side at end of line.

Joffre Street, south side, west of Donovan Street.

Joffre Street, south side at end of line.

North Pembroke Road, north side at Turnpike.

Eighty-seven new services have been laid consisting of 1,936 feet of ¾-inch; 121 feet of 1-inch; 27 feet of 2-inch; also four 6-inch fire supply pipes were connected as follows:

City Hall; Monitor-Patriot Co.; Evans Printing Co., and Perry Bros.

Fifteen services were discontinued of which eight were replaced by new ones and seven discontinued permanently. One hundred and forty services were relaid and curb valves placed on fifty-four old services.

One hundred twenty-three new meters have been set and five have been discontinued.

RELAYING IN PENACOOK

10-inch:

Merrimack Street, from Washington Square to Cross Street, 1,295 feet.

8-inch:

Charles Street, from South Main to Washington Street, 1,750 feet.

Washington Street, from South Main to Charles Street, 1,307 feet.

Merrimack Street, from Cross Street, east, 307 feet.

East Canal Street, from South Main to Crescent Street, 550 feet.

West Canal Street, from South Main to Warren Street, 333 feet.

Cross Street, at Merrimack Street, 46 feet.

Centre Street, at Merrimack Street, 40 feet.

Nineteen gates were set of which eighteen replaced old ones; one was discontinued.

Four hydrants were replaced by new ones.

Fifty-eight services were relaid and new curb boxes were set on fifty-seven services; eight services were discontinued.

The schedule of work done in extensions and relaying of mains shows in detail the amount of cement lined pipe that has been replaced in Penacook. All house services have also been relaid in connection with the mains.

On January 1, 1930 the height of water in Penacook Lake stood at 179.60 and dropped to 179 by the last of February

which point was 6 feet below the overflow and 9.25 feet above the top of the intake. The very small rainfall in February, March and April gave us a rise of only 1.6 feet bringing the height of water to 180.6, 4.4 feet below the overflow and 10.85 feet above the intake. It soon became apparent that in all probability there would be no further rise and an estimate of the drop in level for 1930 comparing with that of previous years would bring the level down to 176 feet, 9 feet below overflow and 6.25 feet above the intake. The drop was actually greater than this estimate by one foot and the level reached December 31, 1930 was 174.95, 5.25 feet above the intake.

Recommendations were made to the Board by your Superintendent early in June that steps be taken at once to procure an additional supply of water from the area recommended by Metcalf and Eddy in their report of 1927 and he was authorized to begin work at once.

Investigations were made through the summer to determine the practicability of obtaining a supply from driven wells in the Soucook River valley.

About thirty-five wells were driven to ledge throughout this area, samples were taken of the sand and pumping tests were conducted on every well. The water pumped from the wells on the Concord side of the river showed a large percentage of iron, contributed no doubt by a swampy area which was in close proximity to the wells. The tests made on the Pembroke side of the river some distance above the Concord area showed only a slight trace of iron, so small that it was negligible.

Pumping tests were conducted on a number of wells connected together on the Concord side to determine the amount of drop in level by pumping. This test was carried on for three weeks, twenty-four hours per day. An experimental iron removal plant under supervision of Metcalf and Eddy was also built which consisted of aeration, coke filtration, sedimentation and rapid sand filtration. By

means of this process it was demonstrated that all of the iron could be removed from the ground water.

The ground water from the Pembroke side of river showing such good tests, it was decided to install a driven well system in this area to yield approximately 1,500,000 gallons daily.

The 12-inch force main was continued along the North Pembroke Road from the point where it was laid in 1928 to the proposed location of the Pumping Station at the well field. Work was begun on this line October 27 and completed November 20.

Work was started driving the wells November 10 and was in charge of John M. Prescott & Son.

It is planned to continue work during the winter and place an auxiliary pump in service as soon as possible.

December 17, 1930 the gates between the Concord and Boscawen supplies were opened and water has been supplied to Penacook and as far south as the West Concord Cemetery from the Boscawen Water Works, amounting to approximately 150,000 gallons per day. The total daily consumption of the city varies from 2,750,000 to 3,000,000 gallons daily.

In this report I wish to take the opportunity of thanking the men of this department who realizing the urgency of obtaining this new supply as soon as possible have cheerfully cooperated at all times and in all weather to push the work along.

I also wish to express my thanks to the members of the Board for their continued confidence.

Respectfully submitted,

PERCY R. SANDERS,

Superintendent.

FIRE DEPARTMENT.

Report of Chief Engineer.

To the Board of Mayor and Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1930.

The Department responded to 86 bell alarms and 536 still alarms.

ALARMS.

	<i>Bell.</i>	<i>Still.</i>	<i>Total.</i>
Precinct,	40	361	401
Penacook	20	95	115
East Concord	2	16	18
West Concord	5	44	49
Plains	19	20	39
	<hr/> 86	<hr/> 536	<hr/> 622

While the number of alarms exceeded all previous records, there was a gratifying decrease in property loss. The apparatus is in good condition in the main but the combination car at West Concord should be replaced and the pump attached to Combination 1 car should receive attention.

First aid kits and salvage covers were installed and two thousand feet of hose purchased during the year, also a new fire alarm repair truck and Chief's car and life net.

The fire alarm system is in good condition. The overhead lines on South Street between Pleasant and Downing Streets, were replaced by underground cable. Eight alarm boxes, to be installed when locations are determined, and material for substituting the overhead parallel lines from the

city sheds to St. Paul's School with overhead cable were among the purchases of the year.

The boiler at the Central Station should be replaced—the one in present use having been installed in 1904. I respectfully recommend the purchase of fifteen hundred feet of hose and the addition of at least one man to the permanent force.

For the opportunity afforded me to learn by attending the convention of The International Association of Fire Chiefs held at Winnipeg during October, a report of which was rendered at that time, I return my sincere thanks.

Respectfully submitted,

W. C. GREEN,

Chief Engineer.

CONCLUSION.

I desire to express my appreciation to His Honor the Mayor, Robert W. Brown, and to the members of the Police Board, and the Board of Aldermen, for the courtesy and consideration shown the department. Also to Judge William L. Stevens, Associate Peter J. King, Clerk of the Court John W. Stanley, and the members of the Police Department, who have so willingly aided me in police work during the past year.

Respectfully,

GEORGE A. S. KIMBALL,

Chief of Police.

REPORT OF THE ENGINEERING DEPARTMENT.

CONCORD, N. H., December 31, 1930.

To the Board of Mayor and Aldermen:

GENTLEMEN: Herewith is submitted the thirty-eighth annual report of the Engineering Department.

An itemized account of all work and expenditures is kept on a card system, which we will be pleased to show and explain to all interested parties.

Thirty-six plans and 1,001 blue prints were made; 20,037 feet of grade stakes were set; 515 transfers of property were recorded; 0.373 miles of street were laid out in 1930 and 200 feet of streets discontinued, bringing the total mileage of streets and roads in the entire city up to 178.507 miles.

The deed book of Blossom Hill Cemetery showing transfers of lots was brought up to January 1, 1931.

The work done under the supervision of this office is: general engineering, construction and maintenance of sewers, building inspection, plumbing inspection and examining of plumbers.

An interesting fact is, that out of every dollar raised by taxation, only \$0.0087 of it is used for the maintenance of the Engineering Department, and we are closing the year with an unexpended balance of \$36.76.

Considerable work was done for the Zoning Commissioners preparing maps, field work and office work.

It would take up too much space to outline in detail the amount of work done in this office, but I assure you we have been busy handling the work assigned us by your government, heads of departments and citizens, which we trust has met with their approval.

The employees of this department have been: Edward E. Beane, assistant engineer; C. Fred Moulton and Paul

Chattock, rodmen, and Frances Richardson, clerk, all of whom have rendered valuable service to the city.

For the support and co-operation of your Board, the heads of departments and citizens of the city, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG.

City Engineer.

**REPORT OF THE BOARD OF HYDRANT
COMMISSIONERS.**

CONCORD, N. H., December 31, 1930.

To the Board of Mayor and Aldermen:

GENTLEMEN: The twenty-fifth annual report of this board for the year 1930 is herewith submitted.

During the year several meetings of the Commissioners were held, and it was voted to recommend to the Water Board that four new hydrants be installed. All of these hydrants were installed during the year.

Respectfully submitted,

FRED W. LANG,
W. C. GREEN,
PERCY R. SANDERS,

Board of Hydrant Commissioners.

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., December 31, 1930.

To the Board of Mayor and Aldermen:

GENTLEMEN: The thirty-first annual report of this board is herewith submitted.

The membership of the present board is as follows: Arthur W. Brown, an examined master plumber; Walter C. Rowe, M. D.; and Fred W. Lang, city engineer. Mr. Brown is chairman of the board, and Fred W. Lang, clerk.

One application for journeyman's license, and two for master's license were received.

Three meetings of the board were held, all of the applicants were examined, and two passed the required examinations; one failed to pass.

There are four classes of plumbers on the register, and are listed as follows:

Total number registered masters,	8
Total number registered journeymen,	2
Total number examined masters,	33
Total number examined journeymen,	21

Respectfully submitted,

ARTHUR W. BROWN,
WALTER C. ROWE,
FRED W. LANG,

Board of Examiners of Plumbers.

REPORT OF THE PLUMBING INSPECTOR.

CONCORD, N. H., December 31, 1930.

To the Board of Mayor and Aldermen:

GENTLEMEN: The sixth annual report of the plumbing inspections in the city of Concord, handled through the office of the city engineer, is herewith submitted:

There have been 157 permits issued for new work, against 190 for 1929, 194 for 1928, 235 for 1927, 210 for 1926 and 156 for 1925.

There were 300 inspections made.

It is pleasing to the inspector to report that there has been very few complaints of evasion of the plumbing rules, and these being of a minor nature.

A record is kept in the office of the city engineer of the various plumbing jobs, showing the layout of the work, date of completion, and the names of the parties doing the work.

The plumbers of Concord, taken as a whole, are expert workmen, and it has been a great pleasure to your inspector to work with them.

Respectfully submitted,

FRED W. LANG,

Plumbing Inspector.

IN MEMORIAM

ORRIN W. HEAD

Superintendent of Streets

Elected December 29, 1919

Died August 16, 1930

REPORT OF SUPERINTENDENT OF STREETS

January 1, 1931.

To the Board of Public Works:

At the outset, I want to express my personal loss in the death of Orrin W. Head, former Superintendent of Streets. Mr. Head served this Department for approximately 10 years, and he has left behind many friends and accomplishments.

This Department is charged with the responsibility of the collection of garbage, maintenance of sidewalks, highways, bridges, and street lighting, as well as the care of trees.

During the year 1930, there have been several important pieces of construction, the outstanding is the work on Galley Hill, so-called, which in addition to the roadway and sidewalk also carries sewer construction about a mile in length, to which the Plains system will be connected when finances permit. The cost of this construction was borne one-half by the State, and one-half by the City.

Five bridges were built;—two on Clinton Street near Turkey Pond, one on the Birchdale Road, one on the Hooksett Turnpike, and one on the new Hopkinton Road. The two construction items mentioned above were paid for by a Bond Issue of \$20,135.80, balance 1929, bridge bond account, \$5,668.84 and \$7,319.98 was transferred from the Hopkinton Bond account.

Cement was laid from the Bog Road to the Gulf Station wholly at the expense of the State.

Main Street in Penacook, from Hoyt's Garage to the Boscawen Town line was rebuilt with modified asphalt, after necessary change in sub-grade on which to properly maintain a first class street.

The Bridge Street Bridge of the Railroad has been re-

constructed, the City to share with the Railroad; one-half the cost in excess of \$34,000.

As closely as I followed this Department as Mayor I did not realize the number of more or less personal matters that the Superintendent of Streets was called upon to administer.

Finance—The appropriation as made, earnings, and amount of money expended will be found in the financial statement, therefore, that information will be omitted from this report.

Bridges—On account of the increased use of the Lower Bridge, so-called, it seemed necessary to make temporary repairs to floor system. While this turned out to be more or less of an experiment it served its purpose in that no accidents, due to failure of the floor system, which have in the past been brought to the attention of the Board, have taken place this summer.

Equipment—We have added to our equipment three Chevrolet one ton trucks, equipped with Wood Hydraulic Hoists and $1\frac{1}{2}$ yard steel bodies also. Two used International Trucks of the same type and capacity as were formerly in the Department, and the other two International Trucks have been thoroughly overhauled. We have also exchanged two Mead-Morrison Tractors, and the remains of the third one, which was demolished by a train on the crossing at East Concord, for three new Mead-Morrison Tractors. The barn, sheds and garage have had a thorough house cleaning, and the discarded equipment has been sold as far as possible and the money received turned into the Department. We have purchased two pair of horses, and sold one horse formerly used in the Department. The result of the above has put the equipment in first class shape.

ROBERT W. BROWN,

Mayor.

REPORT OF THE SEWER DEPARTMENT.

CONCORD, N. H., December 31, 1930.

To the Board of Public Works:

GENTLEMEN: The twentieth annual report to your board, showing work done under the supervision of the Engineering Department, for the year is herewith submitted. Appropriation for maintenance and construction \$20,000.00
Earnings, 4,068.73

Available,	\$24,068.73
Expended,	23,387.85

Balance, \$680.88

Sewers were constructed in the following streets:

Eastman Street, East Concord,	744 feet
Union & So. Main St., Penacook,	945 "
E. Canal St. Penacook, relaid,	624 "
Vernon Street,	141 "
Wood Avenue,	89 "
Kent Street,	120 "
Walnut St. Penacook, relaid,	32 "
Water St. Overflow, extended,	24 "

Total, 2,719 feet

Fourteen catch basins were built and connected: 26 man-holes were built.

There were 94 private pipe plugs and 36 main line plugs which were immediately removed.

There were 95 house connections laid.

One Chevrolet truck was replaced.

Catch basins were cleaned at a cost of \$1,294.34.

A detailed account of every job, bill, etc., is kept in this office.

The department has three Chevrolet trucks and one Sullivan Air Compressor, and a complete equipment of tools, all of which are in excellent condition.

Cost of operating trucks, including gas, oil, repairs, tires, insurance and all other incidental charges except depreciation was as follows:

No. 1	\$337.16
No. 2 (new in Sept. 1930, cash paid \$683.00)	\$186.75
(Old No. 2 Truck expense included in the \$186.75)

East Clinton Street,	463 "
Shawmut Street,	1,482 "
Winthrop Street,	706 "
Mill Street,	450 "
Pembroke Road,	1,427 "
Kearsarge Street,	482 "
<hr/>	
9,000 feet	
or 1.704 miles	

Twenty-three catch basins were built.

The sewer in Eastman street was built by the same contractors out of the regular sewer appropriation.

The total mileage of sewer built in 1930 was 2.101.

The department maintains 55,744 miles of main sewers, approximately 4,100 house connections and 1,450 catch basins.

Every sewer that was granted has been completed with the exception of the sewer in Bridge street through Gulley hill which will be completed by the 15th. of January. The total length is approximately 4,500 feet. This work was done under contracts made by the State Highway Department in conjunction with the road construction. Figures as to costs will not be available until sometime in February 1931.

Our regular employees of the department have been: William H. Murphy, foreman; Richard Morrill, James J. Berryman and Wilbur Kendall, assistant foremen, all of whom are skilled workmen and a great assistance to the department.

During the year there were installed electric street lights as follows: 2—200 C.P.; 5—60 C.P.; 1—40 C.P.; making the total number of lights in operation December 31, 1930, as follows: 143—600 C.P.; 211—200 C.P.; 571—60 C.P.; 550—40 C.P.

During the year there were 38 signs erected.

For the many courtesies extended me by the citizens and your board, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

City Engineer.

REPORT OF THE BUILDING INSPECTOR.

CONCORD, N. H., December 31, 1930.

To the Board of Mayor and Aldermen:

GENTLEMEN: The seventh annual report of your building inspector is herewith submitted.

There were 91 building permits issued.

There were 87 buildings completed.

There were 38 signs erected.

The inspections have taken a great amount of time, and I feel that the code has been lived up to cheerfully by the contractors.

For the courtesy extended me by your board, the contractors and citizens, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

Building Inspector.

PUBLIC LIBRARY.

REPORT OF TRUSTEES.

To the Mayor and Board of Aldermen:

The Trustees of the Public Library transmit herewith our city librarian's annual report, which we commend to your attention.

The library building is in good repair, but is utterly inadequate to the increasing demand for suitable service.

It is well understood that a new building, with modern library facilities is needed; not only for the credit of the city, but for its practical use by children, students, and citizens in general.

Respectfully submitted,

WILLIS D. THOMPSON,

President of the Board of Trustees.

REPORT OF CITY LIBRARIAN FOR 1930.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN:—It has been a pleasure to write this report because it can tell of gain along all lines.

Except, let me hasten to say, except in the matter of expense. Asked not to exceed last year's outlay, we practiced economy through the twelve months and were rewarded by finding we had, by \$84.00, bettered 1929. The cost of this city department for 1930 was \$10,101 the items of expenditures being as follows:

Salaries and labor	\$5,871.32
Books and periodicals	2,213.75
Binding	683.70
Printing	98.55
Fuel and light	803.30
Incidentals	430.66
	<hr/>
	\$10,101.28

Taking up topics in the order prescribed for library reports we come to the subject of

Accessions

More volumes were bought than usual	1603
We had gifts, notably one from Mr. Toland	76
Bound volumes of magazines added	21
Worn out and discarded	477

There was therefore a net gain of 1223 (as against 639 in 1930) bringing the number of books in the library up to 40,005. Of course the booksellers' experiment with dollar editions has enlarged our purchasing power in a way which does not seem likely to continue, judging from the latest announcements from the publishers.

Circulation of books.

This grew gratifying the past year, 9400 more volumes having been charged out to borrowers, making the total figure 98,216 as compared with 88,813 in 1929. This increase is due largely to the Branch Rooms at West Concord and Penacook. In the former, the books we have loaned have gone out more than 1000 times. Over this central and cheery room Rev. and Mrs. Franklin C. Thompson, its originators, have continued their intelligent, accurate and sympathetic care, and certainly their enterprise is for the good and pleasure of Ward 3. Last fall we put \$50.00 at its disposal so that Mrs. Thompson could buy some books for which she had learned there was a crying need.

At the beginning of last March, spurred on and assisted by the Penacook Woman's Club, we started a modest deposit and delivery station in the rear of Stuart G. Fifield's store; to be open twice a week, 2:30 to 5 o'clock; to be managed Fridays by two of the Club women, Tuesdays by two from our regular staff; expense of rent and janitor to be shared by Club and Library. September found the Penacook ladies ready to enlarge and beautify the room so as to make it suitable for their monthly meeting. The Library fell in willingly with their plans, Mr. Fifield gave interested cooperation, and the result is a sizeable, attractive place overlooking the river, stocked with 800 books to which borrowers have free access. A great table is abundantly supplied with current magazines contributed by Penacook people. Upwards of 300 persons in Ward 1 have already registered as borrowers. In the ten months since the Branch was started, 7147 books have been given out. In the coming year we want to bring the number of volumes on the shelves up to 1000, and to further the use by pupils of books taken up to Penacook to help them in their school requirements. Though this Branch renders much wider service than could the delivery station maintained through previous years in another store, it costs but

little more. Despite some initial outlay which will not have to be repeated, \$35.00 would cover the increased overhead expense. It should be added, however, that we have had to buy for this Branch, duplicates of popular books and those on church and other recommended lists.

New Borrowers.

What with the Penacook customers and those applying at the main library, we have filed away 1033 names in 1930.

Service to Schools.

Teachers from half a dozen districts have had loans of books, twenty-five to fifty being taken to their rooms at intervals.

The Reference Department.

and this is almost the same as saying Miss Dennett, has answered 3,849 inquiries the past year.

Troubles.

Of course the library has them—what business has not? Mutilation and ribald defacement of magazines is a major annoyance. A little amateur detective work brought one culprit to task—a confirmed eater of paper, who had chewed off margins from several volumes. Then there are pupils who have been told to embellish their compositions with pictures and who help themselves to illustrations; the worse case of that in 1930, being the tearing of a few leaves from a reference set in order to get a likeness of Alexander Graham Bell.

Changes in Staff.

April first, Miss Helen C. Clarke, a valued assistant for twenty-eight years, resigned her position, to our regret.

On June first, Miss Marion Holt, a Concord girl with some Boston training and experience in library work, joined our staff.

Vacation Reading Club.

Our working number thus complete again, we undertook for a second time this Club which met with success, boys and girls eagerly enrolling as members. More than sixty read enough books to entitle them to receive diplomas, and the four who had read the most and reported thereon most ably, were awarded prizes at an ice cream party that brought the club to a close the last of August and left the children anticipating a similar organization next summer. Miss Melvin and Miss Holt took almost entire charge of the children this year.

Patronage.

It is said that a poor year in business makes a good year at a library, implying, of course, that people curtail pleasures which cost and revert to the free privilege of reading. Whether owing to slack times or not, this present season sees our reading room full to overflowing. The next one must be larger.

A Suggestion.

Thus we are brought to stress again the need of a new building. It may not have occurred to residents that the good time coming when Concord shall have a fine library can be hastened; the future building will require a children's room, a small audience hall, a study room, office equipment, etc., etc. The expense of any one of these could be taken care of by a gift, or bequest from an individual, whose name and deed would be memorialized on a fitting tablet. If in this way the cost of some special features were provided for, the comprehensive outside structure of the

Library could the sooner be undertaken by the accumulating building fund.

With this word to the wise, I sign myself,

Respectfully,

GRACE BLANCHARD,

City Librarian.

POOR DEPARTMENT.

SIXTY-THIRD ANNUAL REPORT OF THE OVERSEER OF THE POOR.

FOR THE YEAR ENDING DECEMBER 31, 1930.

To the Board of Aldermen:

REPORT OF SEALER OF WEIGHTS AND MEASURES FOR THE CITY OF CONCORD

COVERING PERIOD JANUARY 1, 1930 TO JANUARY 1, 1931.

*To His Honor Robert W. Brown, Mayor, and the Board of
Aldermen:*

During the past year there were 678 scales tested which were found correct and were sealed, 305 were adjusted before being sealed, 20 confiscated and 32 condemned for repairs which were later reinspected and sealed.

There were 1,678 weights tested which were found correct and were sealed, 1 adjusted before being sealed and 7 confiscated. 4,873 liquid measures were tested, found correct and sealed, 7 adjusted before being sealed, 19 confiscated and 14 condemned for repairs, later being reinspected and sealed. Six dry measures were tested and sealed.

Your sealer made 529 tests of gasoline pumps, 417 of which were found correct and were sealed, 96 were adjusted before being sealed and 16 were condemned for repairs, later being reinspected and sealed.

During this period 2,886 reweighings were made of commodities in package form, 2,777 of which were correct, 33 over and 76 under weight. Seven loads of coal in the process of delivery were reweighed, 5 of which were found correct and 2 over weight.

There were 40 cart bodies used in the delivery of wood measured and found to be in accordance with the law. Two coal bins were measured by request of citizens to estimate the contents thereof and an amount of soft coal was weighed. There were a number of reweighings of ice made which resulted in two prosecutions in court and consequent convictions.

Respectfully submitted,

GEO. A. DEARBORN,
Scaler of Weights and Measures.

**REPORT OF THE CITY SOLICITOR FOR
NINETEEN HUNDRED AND THIRTY**

Concord, N. H., December 31, 1930.

There has been the usual activity in the office of the City Solicitor during the last year and at times more than usual activity.

The situation of pending cases has been bettered. The suit of Frank H. Silver was dismissed upon the motion of his council at the April Term and that long drawn out matter is disposed of. The case of Royal Ford against the City (Water Works Department) was defended by the insurance company, but as the damages claimed exceeded the amount of the policy, I sat in at the trial, but took no active part. There was a verdict for \$1,500.00 against the City which was covered by the insurance.

This leaves pending on the docket only proceedings for the discontinuance of the old Soucook River Bridge and of the highways at St. Paul's School. The first named case is concluded as far as the discontinuance is concerned, but is pending on the application of the parties interested for damages. The St. Paul's School cases are being continued at the desire of the City.

ELWIN L. PAGE,
City Solicitor.

HEALTH DEPARTMENT.

Reports of the Sanitary Officer and Milk Inspector.

Mayor Brozen, Board of Health and Board of Aldermen:

GENTLEMEN: Following will be found the summary of the work for the year 1930.

The number of contagious diseases were comparatively few and there were many non-resident deaths in the State and City Institutions.

The Venereal Clinic is held weekly under the auspices of the State and local Boards of Health with Dr. Adams in charge: Mrs. Ada Parsons assisting.

In June 1930, Toxin-Antitoxin Clinics were started in the schools of the city, for the prevention of diphtheria and by the end of the school term in June, 1931, all children between 1 and 12 years of age will have had the privilege of having the 3 inoculations given them. Dr. Charles H. Parsons is in charge of these clinics and is assisted by Mrs. Mansur and Mrs. Benson. The Board of Health greatly appreciates the help and cooperation given by The Concord District Nursing Association.

The shores of Penacook Lake have been inspected as well as the alleyways of the city proper and conditions were found to be most satisfactory.

REPORT OF PARK COMMISSIONERS.

To the Mayor and Board of Aldermen:

The city parks have been kept up to the usual standard and at White Park the iron fence has been carried along Beacon street 268 feet.

Four new swings have been added to playground equipment at White Park.

At Rollins Park the Veterans of Foreign Wars have fitted out a swimming pool that will be greatly appreciated by the children of the South End. The northern end of the body of water in the park has been transformed into a pool thirty feet wide and sixty feet long and eighteen inches deep at its deepest point. The work was all done by members of Concord Post, No. 1631.

PUBLIC PLAYGROUNDS COMMITTEE.

To the Mayor and Board of Aldermen:

To put into a short report the many and diversified activities of your Playground Committee would be a difficult task. We can, at least, assure you that there is a great desire on the part of our citizens for adult as well as child recreational facilities. For a small city we are fortunate to have for our summer program many beautiful playgrounds, a municipal golf course, and the Memorial Field with its tennis courts. In the winter, our hills afford coasting and our ponds excellent skating.

Your committee elected, for the season of 1930, Mr. Paul Crowell as Playground Director. From a long list of candidates he was chosen because of his training and because he is a resident of Concord and knows our problems and desires. He proved to be an able director and left the work well organized for another summer.

The attendance, on the whole, was the largest it has ever been on the playgrounds. Competitive sports were much enjoyed and an elastic program afforded opportunity for timely activities.

Penacook School Playground was a new project and filled a need in that section. Equipment was purchased for this area. This Committee is now considering the advisability of protecting this playground by a fence on all sides.

One of the directors had charge and responsibility of the swimming hole at Soucook River. It was fairly well patronized. Its inaccessibility makes its use somewhat of a question, although fifteen boys and girls passed the test as Junior and Senior Life Savers. The Red Cross generously contributed the time of Miss Beatrice Baker for this work. We continue to bring to your attention the need of a municipal swimming pool.

The winter program has included protecting coasters and

preparing skating areas. Hockey is a favorite sport and should be encouraged in this locality.

The Board of Education has given to the Playground Committee the use of the Chandler School. Under the supervision of the Chairman, this building has been put in excellent condition to be used as a community center. At present the Girl Scouts have the use of two rooms, Veterans of Foreigns Wars one room, and the fourth room is reserved for playground purposes.

A flag pole, the gift of Mr. Fred M. Dodge of Penacook, was erected at the Penacook Playground, Penacook, N. H.

The Playground Committee acknowledges the help received from Mr. Wellington of the National Recreational Association and the generous cooperation of various departments of the city government.

The schedule of attendance is as follows:

Penacook School, Penacook	5257

We have audited the accounts of the Trustees of the Trust Funds of the City of Concord for the year ending December 31, 1930, and hereby certify that in our opinion the foregoing report correctly presents the receipts and expenditures of the Trustees for the year under review and the status of the Trust Funds on December 31, 1930. In verifying the receipts we satisfied ourselves that all of the income that should have been received by the City from the Trust Funds had been received and properly recorded in the Trustee's accounts. All disbursements were found to be supported by adequate vouchers. Securities included in the Trust Funds were verified by actual count and inspection. Bank deposits included in the Trust Funds were verified by direct correspondence with the depositories.

We have audited the accounts of Carl H. Foster, Treasurer of the City of Concord, for the year ending December 31, 1930, and hereby certify that in our opinion the foregoing report correctly presents the financial transactions of the City Treasurer for the year ending December 31, 1930. Receipts from City Departments were verified by an audit of the accounts kept by each Department so far as this was feasible and by a certificate of the amount remitted to the City Treasurer by the head of the Department. Receipts from outside sources as from the State and County were verified by direct correspondence. All disbursements were found to be supported by adequate vouchers.

We also certify the cash balance to be one hundred twenty thousand one hundred thirty dollars and fifty-one cents (\$120,130.51), with a note outstanding and unpaid for one hundred thousand dollars (\$100,000.00), due February 7, 1931; the balance of the Bridge Bond Account to be ten thousand six hundred thirty-seven dollars and seventy-six cents (\$10,637.76; Gully Hill Bond Account one hundred thirteen dollars and eighty-seven cents (\$113.87); Memorial Athletic Field Bond Account five thousand four dollars and thirty-two cents (\$5,004.32); Sewer Bond Account one

hundred three dollars and twenty-one cents (\$103.21); City Hall and Auditorium Bond Account seven hundred eighty-four dollars and seventy-one cents (\$784.71); and the City Water Department nine thousand five hundred nine dollars and sixteen cents (\$9,509.16).

In order to give consideration to all expenses for 1930, the accounts of the Treasurer were kept open until January 15, 1931. Receipts for the period beginning January 1, 1931 and ending January 15, 1931 were included in the income for 1930. This is in accordance with the practice regularly followed by the City.

Respectfully submitted,

ARCHIE M. PEISCH & CO.

By (signed) Archie M. Peisch,

Certified Public Accountant.
